

The Blazed Trail

By STEWART EDWARD WHITE

She leaped her knees against her hand and her hand against his shoulder.

"I have been reading a story lately," said she, "that has interested me very much. It was about a man who renounced all he held most dear to shield a friend."

"You," said Thorpe.

"Then he renounced all his most valuable possessions because a poor common man needed the sacrifice."

"Sounds like a medieval story," said he, with unconscious humor.

"It happened recently," rejoined Hilda. "I read it in the papers."

"Well, he blazed a good trail," was Thorpe's sighing comment. "Probably

"Go away!" he whispered.

he had his chance. We don't all of us get that. Things go crooked and get tangled up, so we have to do the best we can. I don't believe I'd have done it."

"Oh, you are delicious!" she cried. After a time she said very humbly: "I want to beg your pardon for misunderstanding you and causing you so much suffering. I was very stupid and didn't see why you could not do as I wanted you to."

"That is nothing to forgive. I acted like a fool."

"I have known about you," she went on. "It has all come out in the papers. It has been very exciting. Poor boy, you look tired."

He straightened himself suddenly. "I have forgotten—actually forgotten," he cried, a little bitterly. "Why, I am a pauper, a bankrupt. I—"

"Harry," she interrupted gently, but very firmly, "you must not say what you were going to say. I cannot allow it. Money came between us before. It must not do so again. Am I not right, dear?"

She smiled at him with the lips of a child and the eyes of a woman.

"Yes," he agreed after a struggle, "you are right. But now I must begin all over again. It will be a long time before I shall be able to claim you. I have my way to make."

"Yes," said she diplomatically. "But you!" he cried suddenly. "The papers remind me. How about that Morton?"

"What about him?" asked the girl, astonished. "He is very happily engaged."

Thorpe's face slowly filled with blood.

"You'll break the engagement at once," he commanded, a little harshly. "Why should I break the engagement?" demanded Hilda, eying him with some alarm.

"You actually don't think he's engaged to me?" she burst out finally. "Isn't he?" asked Thorpe.

"Why, no, stupid! He's engaged to Elizabeth Carpenter, Wallace's sister. Now where did you get that silly idea?"

"I saw it in the paper."

"And you believe all you see? Why didn't you ask Wallace? But of course you wouldn't. Harry, you are the most incoherent dumb old brute I ever saw. I could shake you. You need a wife to interpret things for you. You speak a different language from most people." She said this between laughing and crying, between a sense of the ridiculous uselessness of withholding a single timely word and a tender pathetic intuition of the suffering such a nature must endure.

CHAPTER XXXVI.

SURELY it is useless to follow the sequel in detail, to tell how Hilda persuaded Thorpe to take her money. To a woman such as she this was not a very difficult task in the long run—a few scruples of pride; that was all.

"I hate to do it," he said. "It doesn't look right."

"You must," she insisted. "I will not take the position of rich wife to a poor man. It is humiliating to both. I will not marry you until you have made your success."

"That is right," said Thorpe heartily. "Well, then, are you going to be so selfish as to keep me waiting while you make an entirely new start, when a little help on my part will bring your plans to completion?"

She saw the shadow of assent in his eyes.

"How much do you need?" she asked swiftly.

"I must take up the notes," he explained. "I must pay the men. I may need something on the stock market. If I go in on this thing I'm going in for keeps. I'll get after those fellows who have been swindling Wallace. Say \$100,000."

"Why, it's nothing!" she cried. "I'm glad you think so," he replied grudgingly.

She ran to her dainty escritoire, where she scribbled eagerly for a few moments.

"There," she cried, her eyes shining—"there is my check book all signed in blank. And I'll see that the money is there."

So it was that Hilda Farrand gave her lover confidence, brought him out from his fanaticism, launched him afresh into the current of events. He remained in Chicago all that summer, giving orders that all work at the village of Carpenter should cease. With his affairs that summer we have little to do. His common sense treatment of the stock market, by which a policy of quiescence following an outright buying of the stock which he had previously held on margins, retrieved the losses already sustained and finally put both partners on a firm financial footing. That is another story. So, too, is his reconciliation with an understanding of his sister. It came about through Hilda, of course. Perhaps in the inscrutable way of Providence the estrangement was of benefit, even necessary, for it had thrown him entirely within himself during his militant years.

Let us rather look to the end of the summer. It now became a question of reopening the camps. Thorpe wrote to Shearer and Radway, whom he had retained, that he would arrive on Saturday noon, and suggested that the two begin to look about for men. Friday, himself, Wallace Carpenter, Elizabeth Carpenter, Morton, Helen Thorpe and Hilda Farrand boarded the north bound train.

Box Office Superstition.
A newspaper man was the second in line at the box office of one of the popular theaters on the opening night. The first man asked for four seats, and when he started to pay for them the man in the box office said:

"Oh, that's all right. There's no charge at all for those seats."

The man looked surprised, thanked the ticket manipulator and went on. Then the newspaper man had his turn, and he said:

"Please satisfy impertinent curiosity and tell me why you wouldn't take that man's money."

"Well," said the treasurer, "I expect you didn't notice that that man was cross eyed. If I had sold him the first tickets we wouldn't have had a bit of luck through the whole engagement."

Wasp's Method of Attack.
Belt in his "Naturalist in Nicaragua" draws attention to the methods of attack used by different species of wasps. One accustomed to animals and not to men takes care to crawl down the outstanding hairs to the skin before inserting its sting, while others which live in the midst of human dwellings fly straight at a man's face. The first species, true to inherited instinct, when it attacks unfamiliar human beings attaches itself to their hair or their beards. But there must have been a time when the second species discovered that the face was the vulnerable part, and the discovery was the outcome of the action of brain.

JAPS SCORE AGAIN

Another Russian Warship Put Out of Business at Port Arthur.

RUSSIANS DEMORALIZED

It Is Now Conceded That the Czar Has Nothing to Expect by Operations at Sea.

There Is Equal Evidence That the Army Is Not in Any More Dependable a State.

Admiral Alexieff Retires on Harbin, and Army Reorganization Is Hinted at.

Tokio, Feb. 17.—A report has just reached here that the Japanese torpedo fleet re-attacked the Russian fleet at Port Arthur Feb. 14 and it is thought that one Russian war ship was damaged.

London, Feb. 17.—No war news of importance appears in the London newspapers today but the press attaches the greatest significance to the departure of Viceroy Alexieff from Port Arthur, and comments upon the sudden throwing of Russian troops into New Chwang as indicating Russian apprehension that Port Arthur is in danger and that the Japanese attack may not after all be made where it is expected, on the Yalu.

All the reports tend to confirm the impression that Russia has little or nothing to expect from sea operations. According to one dispatch 400 torpedoes, being two-thirds of Russia's entire available supply of these articles, were destroyed on board the Russian cruiser Variag at Chemulpo.

A Tokio correspondent cables that it is stated officially that several thousand Russian troops have reached Antung and that it is rumored that 20,000 Russians have arrived at Ping Yang on the Tatung river, in Central Korea. This rumor, however, is regarded as improbable unless the invasion of Korea preceded the outbreak of hostilities.

A correspondent at Chemulpo makes the astonishing statement that Japan has already landed 120,000 troops in Korea, 80,000 of whom are extended along the fighting front, south of the Yalu river. According to special dispatches here this morning from Tokio, the Russian squadron has returned to Vladivostok. A Tokio correspondent says in a dispatch that two Russian war ships appeared off Oki Island, in the southern part of the Japanese sea Sunday.

In a dispatch from Port Arthur a correspondent gives a description of seven Russian warships which he says are lying disabled there. They include the battleships Sevastopol and Petropavlovsk, which have not been named in previous reports of the action. The correspondent says altogether eleven Russian ships were put out of action at Port Arthur.

Continuing, he declares that the Japanese were driven from the neighborhood of Kinchau, near New Chwang, after a skirmish, in which 150 Japanese were taken prisoners and 70 Russians killed.

In another dispatch from Tokio one correspondent says the local newspapers are publishing long accounts of the ill-treatment of Japanese in Manchuria, and that the Japanese government has requested the United States to take measures for the protection of Japanese subjects there.

OUTSIDE INTERFERENCE

Is Necessary to Preserve Order in New Chwang.

New Chwang, Feb. 17.—Viceroy Alexieff has left Port Arthur proceeding to Harbin with Gen. Plung, the chief of staff, and the general staff. It is said that the Russian army and navy commands will be reorganized and that Gen. Kerpatsky will command the Yalu division, which is expected to be attacked by the Japanese forces.

Atrocities are daily perpetrated on foreigners and natives both by the organized police and in-coming troops, which makes it impossible for the civil administrator of New Chwang to control the situation. It is feared that a reign of terror will be precipitated if the neutral powers remain inactive.

A captain of police, with ten soldiers, without any provocation, destroyed the contents of a hotel, owned by a German, where three Japanese had registered under the protection of the civil administrator. These Japanese were bound, stabbed and robbed of food money and jewelry. They were rescued with difficulty by United States Consul Miller, together with three women refugees, all of whom the civil administrator has assured Mr. Miller would be protected.

Russians are Rattled.

St. Petersburg, Feb. 17.—Official advices have been received to the effect that another Russian vessel, the cruiser Boyarin, has been blown up through the bungling of her own officers. While laying mines in Port Arthur one of the mines exploded and the cruiser was lost, with all on board, 197 in number. This disaster, coming within

less than a week after the transport Yonsei, with ninety-one men, was blown up in a similar manner, leads to the conclusion that some responsible officer at Port Arthur is grossly incompetent. The firing by shore batteries upon three of their own torpedo boats emphasizes this conclusion.

Winter Is Russia's Ally.

St. Petersburg, Feb. 17.—A dispatch received here from Port Arthur denies that the Japanese are landing at Chin-Wang-Tao, a port on the southern border of Manchuria, close to the Chinese Northern railroad. The sea there is covered with ice for a distance of fourteen miles from the shore and this would make landing extremely difficult. No Japanese have been seen on the Yalu river.

Japanese Press Appreciative.

Tokio, Feb. 17.—The entire press of Japan is united in expressing keen appreciation of the deep and general sympathy which is being shown Japan by western countries, and argues that this war will be the means of drawing the East and West more closely together.

Alexieff's Bold Front.

St. Petersburg, Feb. 17.—Viceroy Alexieff, on Feb. 16, issued an order of the day admonishing the soldiers with regard to patriotic duty and expressing his confidence in victory.

SHOT IN FUN

Two Iowa Small Boys Find Their Father's Revolver.

Fort Dodge, Ia., Feb. 17.—"Marshall, shoot me," said three-year-old Leo Hollis.

"No, I won't," replied his four-year-old brother, who held a revolver in his hand.

The second request by the younger brother was complied with and the ball lodged at the base of the skull. Death was instantaneous. H. E. Hollis, the father, had left his revolver between the mattresses of his bed and the older boy secured it. The younger child saw him get it and playfully asked him to shoot. The mother is almost crazed with grief.

THE BALKANS SITUATION

Vienna Reports Show No End of Uneasiness in Austria.

Vienna, Feb. 17.—The situation in the Balkans is creating great uneasiness here. The official denial of the rumors of the mobilization of Austrian troops has failed to reassure the public, and it is still asserted that the government intends to mobilize two army corps provisionally for the purpose of guarding the Balkan frontier because of fears that Turkey will provoke Bulgaria into war.

Murder Over Valentine.

St. Louis, Feb. 17.—As the result of a quarrel which started over a valentine, John Carley, aged 30, is dead from a bullet wound, Mrs. Minnie Howard, his step-sister, is under arrest charged with the shooting. William Ewing and Maud Goodwin received cuts and bruises and were locked up as witnesses. The trouble occurred in a boarding house conducted by Mrs. Howard. She asserts that she fired the shot which killed Carley to prevent him from killing Ewing during the general scrimmage.

Sixteenth Amendment Advocates.

Washington, Feb. 17.—The National Woman's Suffrage association was given a hearing before the house committee on the judiciary. A delegation numbering over half a hundred women, headed by Mrs. Carrie Chapman Catt, president of the association, arranged themselves around the committee room and enthusiastically applauded the points made in behalf of a sixteenth amendment to the constitution by the various speakers whom Mrs. Catt presented.

Will Explode Awful Crime.

Roanoke, Va., Feb. 17.—Henry Williams, a burly negro who at noon on Jan. 30, last, entered the home of George J. Shields, a well known business man, and outraged Mrs. Shields and then murderously assaulted her and her three-year-old daughter with a hatchet, razor and pocket knife and left them for dead, has been sentenced by Judge Woods in the corporation court to be hanged March 18, next.

No Clue to Assassin.

Charleston, W. Va., Feb. 17.—Near Winfield, Putnam county, an unknown assassin killed Thomas Sparks by firing through the window of his home. Sparks was 83 years old and was county assessor for twenty years. No clue.

TERSE TELEGRAMS

The State Bank of Corning, Ia., failed with liabilities of \$150,000 and possible assets of \$75,000.

Michael Devitt, the Irish leader, called on President Roosevelt and presented him with a black thorn stick.

Rev. Anna H. Shaw has been elected president of the National American Woman's Suffrage association.

The Lathrop Publishing company of Boston has assigned. A rough estimate of the liabilities placed them at \$150,000.

W. Cameron Forbes has accepted the office of United States commissioner for the Philippine Islands, succeeding Judge Taft.

The Japanese forces in Manchuria are moving toward Port Arthur, where they propose to join the navy in an attack on the Russian stronghold.

The census bureau in a report on the mineral industries of Porto Rico, expresses the opinion that these resources will be of great value to the island in future years.

John Cluck shot and killed his rival, Rola Smiley, at Rockville, Mo., and then, kissing the girl they both loved and who witnessed the killing, he sent a bullet through his own brain.

A NATION'S GRIEF

Funeral Services Over Senator Hanna's Body Held in Senate Today.

A NOTABLE GATHERING

America's Chief Personages Assembled to Do Honor to Memory of Stricken Pillar of State.

At Cleveland the Reception of the Honored Dead Will be Truly Significant.

Washington, Feb. 17.—Senator Hanna's body was taken to the capitol this morning where it lay in state in the marble-room of the senate until noon, when the official funeral services were held in the senate chamber.

Dr. Edward Everett Hale, chaplain of the senate, conducted the services and the Gridiron club quartet sang the hymns. The president, members of the cabinet, the supreme court, members of the diplomatic corps, the lieutenant-general of the army, the admiral of the navy and the members of the house of representatives were present. The latter marched over from the house in a body.

Both senate and house had appointed committees to officially represent them at the exercises here and also at the interment at Cleveland. The senate committee consists of twenty of the dead statesman's colleagues, while that of the house includes the entire Ohio delegation and others selected by Speaker Cannon.

Three special trains constituted the funeral cortege from Washington to Cleveland, which left this afternoon. The first will convey the remains and the members of the senator's family. Another car will carry the senators who desire to attend the funeral at Cleveland and the third will be filled by members of the house of representatives.

DISPLAY OF AFFECTION

Hanna's Home City Preparing for the Funeral.

Cleveland, O., Feb. 17.—At the conference of representative citizens held in the city hall yesterday afternoon it developed that the funeral of Senator Hanna Friday is likely to be one of the most magnificent displays of affection that has ever been shown an individual. Veterans of the civil war, workmen, Spanish-American veterans and all of the several military companies of the city will participate in the funeral procession. During the time the body remains in the chamber of commerce auditorium the guard of honor will be alternately of civil war veterans and members of the Fifth regiment. Mayor Johnson issued a proclamation today suggesting the suspension of all business during the hours of the funeral, and the suggestion will be carried out. President Andrews of the Cleveland Electric company stated that he would order the cessation of all streetcar service in the city during the funeral time.

Senator Hanna was a comrade in Memorial Post, G. A. R., and that organization will be prominent in the funeral procession. The representative of the Trades and Labor council stated that undoubtedly thousands of workmen would be part of the funeral escort.

Admission to St. Paul's church will be by card. A pathetic incident in connection with the bringing home of the body of Senator Hanna is that he will not be taken to the family home, nor to that of his son, but will be in the hands of the committee of public men from the time it arrives in the city until the final ceremony in Lakeview cemetery.

Mrs. Hanna Greatly Prostrated.

There were 3,177 deaths in Indiana in January, a death rate of 14.8 to each thousand. In January 1902 the number of deaths was 2,910, a rate of 13.8. There were 400 deaths from consumption and nearly 600 from pneumonia. The deaths in nearly all average diseases were more numerous during the last month than usual for the time of year, probably owing to the long and severe winter. In speaking of the number of deaths from consumption the bulletin issued by the state board of health asks the question whether it is not about time for the legislature to do something to reduce the horrible mortality.

Evansville's Serious Plight.

Evansville, Ind., Feb. 17.—Ice in the river has put out of service one of the pump boats furnishing water to the city auxiliary pumping station, and with the new works closed down the city has barely any pressure, the water not even being forced through faucets on first floors. Many people are hauling water. Lack of water has shut off street car traffic, and the company will have to haul water to supply the boilers. In case of fire the city will be practically helpless.

Admiral Cotton's Retirement.

Washington, Feb. 17.—Announcement is made at the navy department of Rear Admiral Charles S. Cotton, commander-in-chief of the European station. Rear Admiral Cotton's request to be retired was because of the continued ill health of his wife. Rear Admiral Chadwick will succeed him.

Big Fire at St. Louis.

St. Louis, Feb. 17.—The four-story building at Fifteenth and Poplar streets, occupied by the Belle Hickey Showcase Manufacturing company and the Brooks, Goodfellow Shoe Manufacturing company, was destroyed by fire. The loss is estimated at \$125,000.

Natives Attack German Outpost.

Berlin, Feb. 17.—A dispatch from Okahandja, German Southwest Africa, says that in an outpost skirmish near Seels, east of Windhoek, the German column marching to the relief of Windhoek lost three men killed and had two men wounded.

Many Messages of Condolence.

Washington, Feb. 17.—Messages of condolence from all parts of the world continue to be received by Mrs. Hanna.

A SORROWING PARTY

Of Hoosiers Will Attend Senator Hanna's Funeral.

Indianapolis, Feb. 17.—A party of prominent Hoosiers will attend the funeral of Senator Hanna at Cleveland, Friday. Gov. Durbin is going and will probably be accompanied by several members of his staff. Chairman Goodrich of the Republican state committee will leave sometime Thursday for Cleveland. National Committeeman Harry S. New, who was a member of the executive committee of the national organization and one of Senator Hanna's very close political friends is going to Cleveland tomorrow. He would have gone on to Washington but the time is too short. District Attorney Keating and several state officials will probably be members of the governor's party enroute to Cleveland. The special meeting of the Republican state committee which was to have been held this week has been postponed until next week because of the death of Senator Hanna.

Party leaders are beginning to feel that national politics is being played now in Indiana inasmuch as the delegates are being selected to the Republican national convention. The selection of the delegates, however, is not fraught with so much interest as was promised several months ago when there was a prospect of opposition to President Roosevelt. So far as his chances are concerned the selection of the delegates will be a mere formality but it will open an interesting vista of speculation as to who is to be elected national committeeman. Harry S. New is confident that the two delegates selected yesterday by the Twelfth district are for him for national committeeman. He is more active than his opponent Charles L. Henry but the outcome of the race is naturally much in doubt as but two of the thirty delegates are known.

On the face of returns up to this time J. Frank Hanly of Lafayette has the best of his opponents in the race for the Republican nomination for governor. In addition to Hamilton, Howard and Starke counties it is now stated that he has a clear majority of two-thirds of the Rush county delegation, although a very stiff fight was put up there for W. L. Taylor by Judge Henly of the Appellate court and other well known politicians who are for the Indianapolis candidate. The result of the primaries so far has caused Hanly's stock to rise but the Montgomery county delegates will be named this week and it is said that every one of them will be for Taylor which in a measure equalizes things between the two men who are generally regarded as the leaders of the race.

The Ninth district will break the ice and hold the first congressional convention. Chairman Sims who is also secretary of the state committee, has issued a call for the Republicans to meet at Frankfort, Feb. 23, a week from Thursday. Charles B. Landis will be renominated for congress without opposition. Sometime ago there was talk of opposition to him but he will get the place by acclamation. Delegates to the national convention will not be selected before the middle of March but it is very probable that the convention will adopt a rousing Roosevelt resolution as Congressman Landis is one of the most enthusiastic Roosevelt men in Indiana.

Topeka, Kan., Feb. 17.—Blanche Boies has been sentenced to serve thirty days in jail and pay a fine of \$100 for her second offense in smashing the windows of buildings in which joints were operating a year ago. A Strong Man

Is strong all over. No man can be strong while suffering from indigestion or some other disease of the stomach and its associated organs of digestion and nutrition. For when the stomach is diseased there is a loss of the nutrition contained in food, which is the source of all physical strength.

When a man doesn't feel just right, when he doesn't sleep well, has an uncomfortable feeling in the stomach after eating, is languid, nervous and irritable, he is losing the nutrition needed to make strength.

Such a man needs to use Dr. Pierce's Golden Medical Discovery. It cures diseases of the stomach and other organs of digestion and nutrition. It enriches the blood, stimulates the liver, nourishes the nerves, and so gives health and strength to the whole body.

Mr. Thomas A. Swarts, of Sub. Station C, could only walk in the house by the aid of a chair, and I had given up to die. Then one of my neighbors said, 'Take my advice and take Dr. Pierce's Golden Medical Discovery and make a new man out of yourself.' The first bottle helped me and after I had taken eight bottles in about six weeks I was weighed and found I had gained twenty-seven (27) pounds, and I am as stout and healthy to-day, I think, as I ever was.

Mass Convention.

The Republicans of the City of Seymour, Indiana, will meet in mass convention at the City Hall, Thursday afternoon February 18th, at 1:30 o'clock for the purpose of electing one precinct committeeman from each voting precinct in the city.

H. E. McDONALD, Chairman.
J. G. SALTMAH, Sec'y.

SUCH democratic papers as the Enquirer, Indianapolis Sentinel, Chicago Chronicle, in fact all the great democrat papers except the Seymour Democrat, pay deserved tribute to Senator Hanna. But his fame will not be lessened to any great extent by the Democrat's narrow estimate.

THE people of Seymour generally have always taken kindly to the proposition to build an electric line from Seymour to Columbus through Reddington and Azalia. The road would run through a rich and thickly populated territory, through a territory that does not now have facilities. Such a line would unquestionably be a good thing for both Seymour and Columbus. It would be a good thing for the people along the route for it would give them accommodations that they have been wanting for a long time.

Political Gossip.

Republicans of Seymour should remember the mass convention at the city hall tomorrow afternoon at 1:30. The purpose of this convention is to elect a committeeman for each voting precinct of the city. There should be a large attendance.

As was predicted Henry Price is out for county treasurer and is interceding with the democratic brethren to vote for him. Jackson township democrats want the nominations for senator, representative, auditor, treasurer and a few of the minor offices, and the indications are that they will get their full share.

Obituary.

Sarah Kiser was born in Brownville, Pa., April 21, 1817 and died Feb. 8, 1904 at Charlestown, aged 86 years, 10 months and 13 days. The family moved to Hallsville, Ohio in 1824. She married Charles Swengel April 6, 1847. She with her husband came to Jackson county, Indiana, in 1849. Her husband died in 1887. Mrs. Swengel was a kind dutiful wife and affectionate and painstaking mother. She reared a large family. Six of the children are yet living, W. S. Swengel, of Columbus, Mrs. Joseph Ryan, of Elizabethtown, Sarah Earl, of Indianapolis, George W. Swengel, of Charlestown, Jacob Swengel, of Missouri and Mathias Swengel, of Ohio. She united with the Methodist church in 1840 and remained an earnest and consistent member of that church during life. She was a person of intense and untiring industry, a home-maker in the strictest sense of the word. A gentle genial soul whose beautiful and useful life was extended beyond the allotted three score and ten. In her demise a noble character has passed away.

Prisoner Taken to Bloomington.

James McDonald, who was arrested for the murder of Miss Schafer at Bedford, has been removed from the State Reformatory to Bloomington. The grand jury is still in session at Bedford and the officers say McDonald will be indicted. They maintain that they have positive proof of his guilt. As yet the public inclines to the belief that he is innocent.

Passengers for Florida and the South via Pennsylvania Short Lines from Seymour may select any route from Louisville in purchasing tourist tickets. Pennsylvania Short Lines trains from Seymour connect at that gateway with through trains at Jacksonville, St. Augustine, New Orleans and other southern points. For particulars consult ticket agent of Pennsylvania Lines.

Special Attention En Route Given Passengers for the South.

Baggage may be checked through from starting point, and every facility will be extended for a convenient and comfortable trip, if arranged for through ticket agent of Pennsylvania Lines.

There is only one rational way to treat nasal catarrh: the medicine is applied direct to the affected membrane. The remedy is Ely's Cream Balm. It restores the inflamed tissues to a healthy state without drying all the life out of them and it gives back the lost senses of taste and smell. The sufferer who is tired of vain experiments should use Cream Balm. Drug-gists sell it for 50 cents. Ely Brothers, 56 Warren street, New York, will mail it.

A LETTER TO MOTHERS.

All Seymour Women Should be Interested.

Mrs. Charles Perry, of Glens Falls, N. Y., writes: "I wish I could induce every mother who has a weak, sickly child to try that delicious cod liver oil preparation, Vinol. We were so worried about our little daughter—she had lost flesh, was thin, pale and sickly, and nothing seemed to do her any good. Having heard of Vinol we decided to try it, and the results were marvelous. Her appetite has been re-

[MARY AGNES PERRY.]

stored and she is gaining in weight right along, the color has returned to her cheeks and she seems stronger than she has for years."

Every mother in Seymour is asked to try Vinol on our guarantee to make children robust, strong and healthy or return money if it fails. Vinol is a pure cod liver oil preparation, but without a drop of oil to upset the stomach and retard its work. It is delicious to the taste and children love it. It does not taste, nor look, nor smell like a cod liver oil preparation—yet it is.

We have never sold anything in our store equal to Vinol to create strength for old people, weak, sickly women and children. W. F. Peter Drug Co.

The Death Penalty.

A little thing sometimes results in death. Thus a mere scratch, insignificant cuts or punny boils have paid the death penalty. It is wise to have Bucklen's Arnica Salve ever handy. It's the best salve on earth and will prevent fatality, when burns, sores, ulcers and piles threaten. Only 25c, at W. F. Peter Drug Co.

Suicide Prevented.

The startling announcement that a preventative of suicide had been discovered will interest many. A run down system, or despondency invariably precede suicide and something has been found that will prevent that condition which makes suicide likely. At the first thought of self destruction take Electric Bitters. It being a great tonic and nerve will strengthen the nerves and build up the system. It's also a great stomach, liver and kidney regulator. Only 50c. Satisfaction guaranteed by W. F. Peter Drug Co.

THE AMERICAN MONTHLY REVIEW OF REVIEWS

THE NECESSARY MAGAZINE IN THE PRESIDENTIAL YEAR

The Review of Reviews is often called a necessity, in recognition of its usefulness in keeping readers "up with the times."

In Presidential election years the REVIEW OF REVIEWS is more than ever "the necessary magazine." Everybody wants to be truly and quickly informed about this or that public question that has forged to the front; to know about the new candidate and personal factors in politics, to have a complete picture at hand of the current movement of history.

In Dr. Shaw's editorials, in its authentic and timely contributions, in its brilliant character sketches, in its candidations and reviews of all the important articles of other magazines, and in its hundred a month of valuable portraits, witty cartoons, and interesting views, the REVIEW OF REVIEWS gives the much desired news of the world's and our own progress. "The World under a Field-glass" is the way one subscriber describes it. Many in public life, like President Theodore Roosevelt, the members of Congress, and the great captains of industry, who must keep "up with the times," intelligent men and women all over America, have decided it is "indispensable."

Baptist Meetings.

Mr. Landis made clear to his congregation last night what salvation is and why so many never have it. They don't want it. With the gates of heaven open wide and no angel with flaming sword to keep anybody out you yet could not get most people in with an ox chain. Holy things are not to their taste. They need to be wholly changed inwardly—to have new hearts.

Tonight he will address young people, Sunday school scholars and workers. All are invited.

A Smoker.

Two of Leroy Miller's men, who are redecorating the Steinwedel room, conducted a realistic "smoker" in that room for awhile this morning. They needed a fire to warm things up and expedite their work. They brought in a stove, set it up and built a fire. As soon as the fire was started the stove began smoking out of every opening. They did their best, but could not locate the trouble. The smoke got so thick that they and the carpenters had to move out. Then one of them climbed upon the roof and learned the trouble. They were trying to use a "blind" flue.

Macbeth.

Macbeth, as presented by John Griffith and his company at the opera house last night, was probably a disappointment to most of the audience. Griffith's interpretation of Macbeth does not accord with that of many who have read the play carefully and were there last night. Other than Lady Macbeth Griffith's support is nothing to brag on.

Factory for Medora.

Medora citizens, together with outside capitalists, have organized a \$30,000 stock company for the purpose of building a factory for the manufacture of brick and tile. They propose to use the shale found in that locality and said to be specially well adapted to this purpose.

Mary Wagner vs August Wagner, divorce.

From Texas.

In renewing his subscription to the REPUBLICAN Edward Ogle, of Dallas, Texas, says: "Continue sending us a weekly 'welcome visitor.' We have splendid health here and are living easy; have bought an interest in the Dacus Business College and am now teaching bookkeeping."

"Here is the place to spend the winter; we have not used half a cord of wood in the winter and it is almost past. Farmers are most through with breaking for corn and cotton. There are all kinds of vegetables in the market (chickpeas, strawberries, 40 cents a quart. Other early stuff about the same."

RHEUMATISM

NOT A SKIN DISEASE.

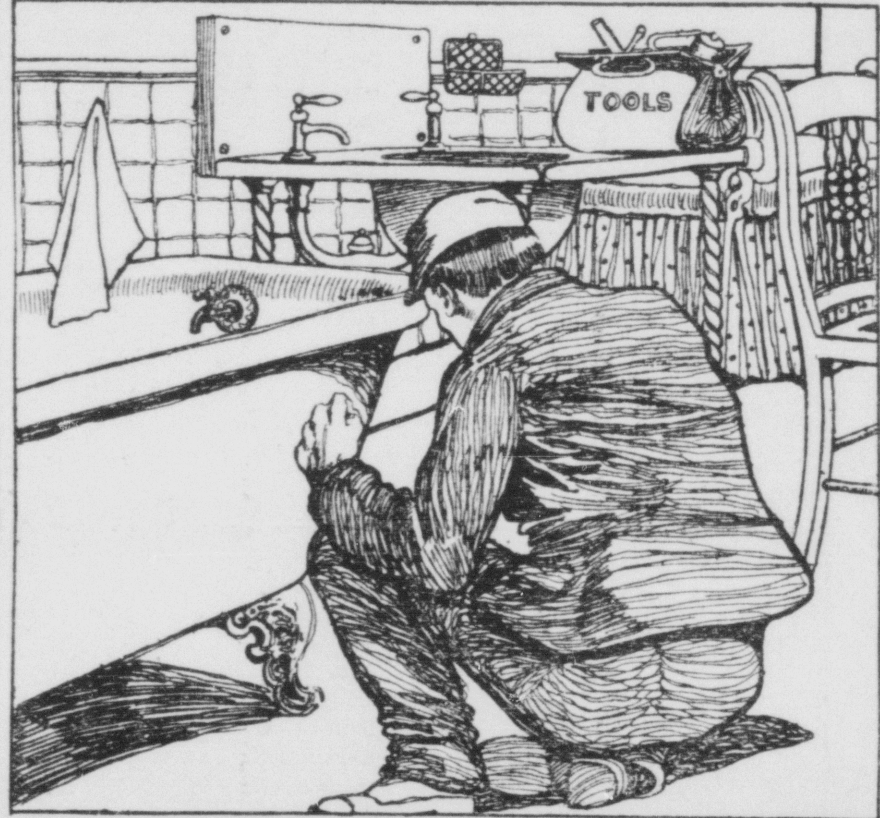

It is natural to rub the spot that hurts, and when rheumatic pains are shooting through the joints and muscles and they are inflamed and sore, the sufferer is apt to turn to liniments and plasters for relief; and while such treatment may quiet the pain temporarily, no amount of rubbing or blistering can cure Rheumatism, because it is not a skin disease, but is in the blood and all through the system, and every time you are exposed to the same conditions that caused the first attack, you are going to have another, and Rheumatism will last just as long as the poison is in the blood, no matter what you apply externally. Too much acid in the blood is one cause of Rheumatism; stomach troubles, bad digestion, weak kidneys and torpid liver are other causes which bring on this painful disease, because the blood becomes tainted with the poisonous matter which these organs fail to carry out of the system. Certain secret diseases will produce Rheumatism, and of all forms this is the most stubborn and severe, for it seems to affect every bone and muscle in the body. The blood is the medium by which the poisons and acids are carried through the system, and it doesn't matter what kind of Rheumatism you have, it must be treated through the blood, or you can never get permanently rid of it. As a cure for rheumatic troubles S. S. S. has never been equalled. It doesn't inflame the stomach and ruin the digestion like Potash, Alkalies and other strong drugs, but tones up the general health, gently stimulates the sluggish organs, and at the same time antitoxins and filters out of the blood all poisonous acids and effete matter of every kind; and when S. S. S. has restored the blood to its natural condition, the painful, feverish joints and the sore and tender muscles are immediately relieved.

Our special book on Rheumatism will be mailed free to those desiring it. Our physicians will cheerfully answer all letters asking for special information or advice, for which no charge is made.

TO OUR READERS

THE GENTLEMAN FROM INDIANA

Will be published in this paper beginning in a few days. We are not going to say much about it and we will tell you why.

If we describe the story as it is you will say before you have read it that we have greatly exaggerated. After you have read it you will say we failed to do it justice.

It is the story of a fearless editor who incurred the hatred of white caps and was murderously attacked by them, and—but we must not say what came of it, for that would be telling, and would take away from your pleasure in reading it.

It pictures vividly a phase of life which is too common in America.

It ought to be read by every man who loves his country and by every person who loves a lover—for the hero is a passionate lover, whose love making is superb.

We know you will read it if you dip into the first chapters—and our word for it, you will enjoy it as you have seldom enjoyed a story.

WINE of CARDUI

The woman who has suffered from female weakness should do anything within reason to secure health. Wine of Cardui is the medicine that appeals to reasonable women—women who hold operations and cutting in horror—women who know that Nature is the best physician. Wine of Cardui gives women back their health by giving Nature a chance to build up the wasted and diseased tissue. Wine of Cardui regulates the menstrual flow and Nature, when relieved of the drains or of the poisons in the system, makes the functional organs strong and healthy again.

Any woman who is silently suffering untold pains because she is too sensitive to undergo a physician's examination and treatment can find no excuse for not securing relief when Wine of Cardui is offered to her. There is no publicity to deter her. She can take Wine of Cardui in the privacy of her home, with as much assurance of a final cure as though a dozen doctors recommended it. Many physicians do recommend Wine of Cardui to their patients.

Why not get a \$1.00 bottle of Wine of Cardui from your druggist today?

A million suffering women have found relief in Wine of Cardui.

"Wine of Cardui is certainly 'worn out' women's best friend and I am pleased to give my experience with it. A few months ago I caught a severe cold, having been out in inclement weather, which settled all over me, particularly in the abdomen. I was in almost constant pain. I consulted a physician and took his medicine for a month and without any relief. I then decided I would try your medicine and it was a lucky day for me when I did so. I noticed a change in a few days and felt encouraged to continue taking Wine of Cardui, and my patience was rewarded, for in two weeks my pains had left me and I felt like a new woman."

A WISE MEASURE

State Medical Society Seeking to Establish Consumptive Hospital.

NEED OF SUCH ACTION

The Growing Knowledge That Consumption is Not a Hopeless Disease Inspires Safeguard.

Legislature Will be Asked to Give the Proposition Needful Financial Aid.

Indianapolis, Ind., Feb. 17.—The State Medical society at the next session of the legislature will ask for an appropriation to construct a hospital for persons afflicted with tuberculosis. The committee appointed at the last meeting of the society to look into the question will report that a hospital for consumptives is a necessity for Indiana. Dr. Hurty, secretary of the state board of health, and Dr. Theodore Potter, of Indianapolis, are doing most of the work of arranging for the request.

The plans are as yet immature, but the medical society proposes an institution that will accommodate 200 patients, each of whom, it is supposed, will remain in the hospital from four to six months. Statistics show that 80 per cent of tubercular persons are cured of the disease if treated in time.

The fight for the hospital will be the most vigorous that the health officers have waged for any measure. The health authorities intend to get the public interested in the scheme.

MALCONTENTS PAID OFF

Warring Greeks No Longer Source of Disturbance.

Bloomington, Ind., Feb. 17.—The troublesome Greeks at the Stanford tunnel camp have been paid off by sub-contractor Bruce Head, in the presence of Sheriff Thrasher and his deputy, after which, as per agreement, the strikers took the first train north out of the county. Their ringleader, Stang, would not approach headquarters for fear of arrest, and the sheriff saw that he was paid. The last seen of the leader, after receiving his money, he was headed across the fields walking rapidly. Nearly \$1,200 in gold and silver was disbursed, the Greeks having a fear of paper and refusing to receive checks. After their departure there was no further trouble in the Stanford camp, the remaining laborers returning to work.

Aged Pensioner Fatally Assaulted.

Plainville, Ind., Feb. 17.—Samuel Duzan, a pensioner, seventy years old, was found unconscious on the railroad, just above the Mills elevator. His hat lay some distance from the body. His head was crushed, and the blood, which had frozen on the ground and on the side of the face, indicating that he had been lying there for hours. Duzan had just drawn his pension and it is believed he was beaten by robbers. He probably will die.

A Train of Suicides.

Connersville, Ind., Feb. 17.—Charles Perkins, twenty-one years old, is dead of an overdose of morphine, taken with suicidal intent. He is said to have made previous efforts at self-destruction because of despondency. His father died suddenly two years ago, under circumstances pointing strongly to suicide. The son grieved over his death continually. Last fall Edward Perkins, cousin and intimate friend, also committed suicide.

College Loses Valuable Gift.

Muncie, Ind., Feb. 17.—Announcement is formally made that Palmer University will not be reopened, notwithstanding the contribution of \$100,000 made to the institution by the late Francis Palmer, of New York, and the popular subscription amounting to another \$100,000. Heirs of Francis Palmer have been successful in their effort to prevent the university from receiving the Palmer gift.

He Claims Self Defense.

Boonville, Ind., Feb. 17.—Judge Swan, of the Warrick circuit court, has instructed the grand jury to investigate the murder of Charles Koehler by Louis Roth, occurring one month ago. Young Roth, who claims to have acted in self-defense, is at liberty on \$5,000 bonds.

Will Hold Him Awhile.

Marion, Ind., Feb. 17.—Jesse Bodkin, the alleged outlaw, who has given the police of Indiana, Ohio and Illinois a great deal of trouble in the last year, was convicted on the charge of larceny in the circuit court and sentenced to the Indiana reformatory for four years.

Murderer Got Away.

Lawrenceburg, Ind., Feb. 17.—Thomas Meaney, a gang foreman on Big Four railroad improvements, was fatally shot by an Austrian employe who had been discharged. Although 125 men saw the shooting the Austrian escaped.

Echo of Purdue Wreck.

Noblesville, Ind., Feb. 17.—A. W. Truitt, of this city, whose son Samuel, was killed in the wreck of the Purdue special, at Indianapolis, last October, has compromised with the Big Four Railroad company by accepting \$3,000.

"DO IT TO-DAY."

The time-worn injunction, "Never put off 'til tomorrow what you can do today," is now generally presented in this form: "Do it to-day!" That is the terse advice we want to give you about that hacking cough or demoralizing cold with which you have been struggling for several days, perhaps weeks. Take some reliable remedy for it to-day—and let that remedy be Dr. Boschee's German Syrup, which has been in use for over thirty-five years. A few doses of it will undoubtedly relieve your cough or cold, and its continued use for a few days will cure you completely. No matter how deep-seated your cough, even if dread consumption has attacked your lungs, German Syrup will surely effect a cure—as it has done before in thousands of apparently hopeless cases of lung trouble. New trial bottles, 25c; regular size, 75c. At all druggists.

Costly Blaze in Minneapolis.

Minneapolis, Minn., Feb. 17.—One of the biggest fires that ever visited this city started last night in the printers exchange building, a six-story brick structure, gutting the entire interior and incurring a loss of over \$120,000.

An Army Officer's Suicide.

Washington, Feb. 17.—First Lieut. George D. Jarrett, Second Infantry, is dead at Ft. Logan, Col., from wounds self-inflicted while suffering from a temporary attack of dementia.
